

Treasury Department,

BUREAU OF THE MINT,

Washington, D. C., — May 1, 1890., 189

The Superintendent, U.S. Mint,
Philadelphia, Pa.

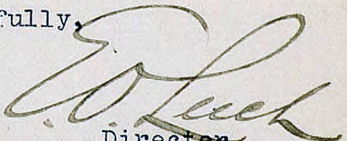

Sir:

I return herewith by express to day one of the bronze copies of the medal struck to Joseph Francis. You will notice that there is a very serious defect on the bust, which shows great carelessness in striking the medal. This medal should not have been forwarded in the condition in which it was received.

I did not examine the other five but sent them at once to Mr. Francis. If they were in the same condition as this they were unfit to have left the mint.

You will please have another medal forwarded in place of the one herewith returned.

Very respectfully,

Director
